HOW TO REACH VISEU

## Transportation: From Lisbon Airport

- **Option 1:**

Metro & Bus

Duration: 3h30 to 4h from Lisbon Airport to Viseu

1st step:
Go from Lisbon airport to the metro station. It's on the right of the main airport exit.

2nd step:
Take the subway headed to **"Oriente" station** through the **red line**. You can buy your tickets at the vending machine or on the ticket office (round 1,80€ - single ticket). Leave the subway in the **third stop** (less than 10 min).

3rd step:
Leave the subway at "Oriente" station, walk upstairs and go to the bus station to catch the bus to Viseu. Buy tickets from "Lisboa (oriente)" to "Viseu" here (20€ single tickets).

- **Option 2:**

Transfer

It takes around 2h50 from Lisbon Airport to Viseu and cost around 300€. You can book the transfer here.

- **Option 1:**

Metro & Bus

Duration: 2h40 to 3h from Oporto Airport to Viseu

1st step:
Go from Oporto airport to the metro station outside.

2nd step:
Take the subway headed to **"Campanhã" station** through the **purple line.** You can buy your tickets at the vending machine or on the ticket office (2€ - 3€ single ticket and takes around 33 min).

3rd step:
Leave the subway at **"Campanhã" station,** walk to the **Porto Bus Station** to catch the bus to Viseu (around 6min).
You have to buy tickets from "Porto (Campanhã)" to "Viseu" here (around 13€ single tickets).

- **Option 2:**

Transfer

It takes around 1h30 from Oporto Airport to Viseu and cost aorund 150€. You can book the tranfer here.

SEMINAR: NEW TECHNOLOGIES IN EDUCATION AND SOCIETY

About the seminar

This 3-day seminar, featuring plenary sessions, panel discussions, and poster sessions, will dive into the exploration and discourse surrounding new technologies in education and society. The plenary session will showcase new technologies utilized in education, while also serving broader social needs. Attendees will gain insight into the innovative concept of EUNICE Virtual Lab, explore the opportunities and challenges posed by the Metaverse, Artificial Intelligence (AI), and blended real/virtual teaching approaches. Attendees will also have the unique opportunity to experience the virtual world first-hand through the use of VR headsets.

This seminar aligns with the EUNICE4U project, which aims to develop a shared system of support for pedagogical innovation. One of the primary goals of EUNICE activities is to improve student learning through continuous pedagogical innovation, including effective integration of learning technologies, interdisciplinary teaching methodologies, and challenge-based learning approaches. EUNICE strives to harness the potential of immersive learning, particularly through virtual collaborative environments, as a promising method for delivering distance academic programmes.

Fee + registrations
